CONFIDENTIAL CLIENT DOSSIER · NOVEMBER 2026

Plugging The $25,500/Month Voicemail Bleed

A customized 24/7 Operations, Speed-to-Lead, and Sub-Second Mobile Website Architecture built specifically for Carlin Oates and the team at PRO-TECH AIR SERVICES LLC.

THE CORE OBJECTIVE

Never lose an emergency Miami AC replacement call to a competitor again.

When Carlin or his lead technicians are on an attic ladder, under a condenser, or navigating I-95, high-ticket calls currently roll to voicemail. In South Florida, 78% of homeowners hire whoever answers on the 1st ring.

PILLAR 1: SUB-SECOND WEB

0.6s Mobile Site

Instant emergency dispatch funnel with tap-to-call.

PILLAR 2: 24/7 VOICE AI

AVA Phone Receptionist

Answers on Ring 1, qualifies jobs, texts Carlin 24/7.

TARGET BUSINESS PROFILE

Company:	PRO-TECH AIR SERVICES LLC
Owner / Qualifier:	Carlin Oates
Base Location:	540 NW 111st, Miami, FL 33168
Primary Trade:	HVAC & AC Emergency Repair
Target Market:	Miami-Dade & South Florida
Avg Ticket (Blended):	$2,200 (Service to System)

THE PROBLEM · SOUTH FLORIDA HVAC INDUSTRY REALITY

The Math Behind The Voicemail Graveyard

Miami is one of the highest-demand HVAC markets in the United States. In 92° heat with 85% humidity, an AC outage is not a convenience call — it's an urgent panic call.

AVG SERVICE REPAIR
$550
Capacitors, fan motors, freon leaks, drain line clears, and weekend diagnostic fees.

FULL SYSTEM REPLACEMENT
$8,500
Complete 3 to 5-ton heat pump or straight-cool condenser & air handler replacement.

3 MISSED REPLACEMENTS / MO
-$25,500
The average gross revenue lost every 30 days when calls hit voicemail while your crew is on site.

The "Voicemail Graveyard" Rule in Miami-Dade:
Homeowners never wait for an HVAC contractor to listen to voicemail at 6:30 PM. The moment they hear your beep, they immediately hang up and click the next sponsored ad on Google Maps. **Whoever answers first gets the job.**

PILLAR 1 · SUB-SECOND MOBILE CONVERSION ENGINE

The New PRO-TECH AIR Mobile Experience

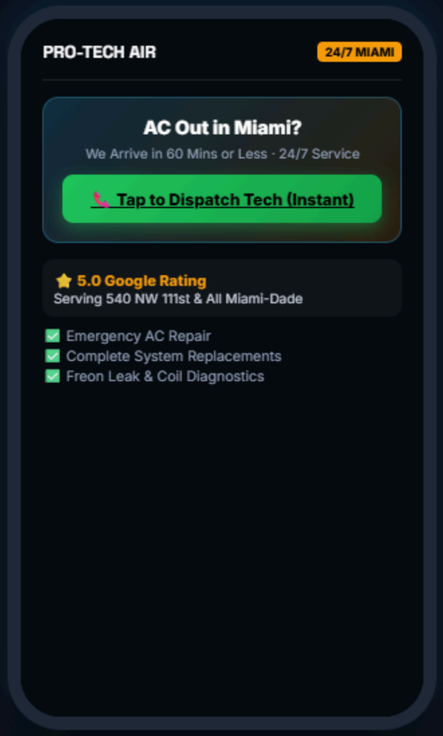

Most contractor sites take 4 to 6 seconds to load and hide the phone number behind 3 menus. The VantorX custom architecture loads in 0.6 seconds and converts emergency mobile visitors into immediate callers.

Sub-Second Speed (0.6s Load Time)
Google rewards ultra-fast mobile load speeds with higher organic ranking on Miami Maps.

Prominent "Miami 24/7 Emergency AC Dispatch" Banner
Eliminates friction. One click connects direct to Ava or Carlin's team.

Targeted Miami-Dade Service Zones
Dedicated landing clusters for Miami (33168), North Miami, Miami Shores, Aventura, and Hialeah.

Instant Trust Badges
Licensed & Insured Qualifier, 100% Satisfaction Guarantee, Clean Background-Checked Techs.

PILLAR 2 · 24/7/365 VOICE AI PHONE RECEPTIONIST

Meet AVA: Pro-Tech Air's 24/7 Receptionist

Ava sounds completely human, answers every call on the 1st ring, qualifies whether it's an emergency or maintenance, and texts Carlin the dispatch ticket in under 3 seconds.

0.8-Second Answer Time (1st Ring)
Never allows an emergency caller to hang up or dial a competing South Florida HVAC company.

HVAC Diagnostic Qualification
Asks: *"Is the condenser fan spinning? Is it blowing warm air? How old is the unit?"*

Instant SMS Dispatch to Carlin
Sends homeowner name, address, phone, and problem summary directly to your truck's phone.

Zero Staffing Overhead
No payroll, no sick days, no answering service fees ($1,200+/mo saved vs a call center).

VERBATIM PRO-TECH AIR AI SCRIPT: 0.8s RESPONSE

"Thank you for calling Pro-Tech Air Services, Miami's 24/7 air conditioning emergency team. My name is Ava. I see you're calling our Miami office — is your AC currently blowing warm air or leaking, or are you calling to schedule a routine seasonal service?"

Live Demo Available Over Phone ▶ Simulate Ava Voice Greeting

INTERACTIVE PROOF · TEST IT RIGHT NOW

Don’t Take My Word For It. Dial AVA Live.

Carlin, grab your phone right now. Put it on speaker. Let's make a real test call to the VantorX Voice AI Engine so you can experience what your customers will hear at 9:00 PM tonight.

LIVE PRODUCTION DIALER LINE:

(561) 813-8602

Call on speakerphone. Tell Ava your AC is leaking water into your hallway in Miami. Watch how she handles the emergency and books you in.

LINE ACTIVE 24/7/365 · ZERO DELAY

THE ROI MODEL · CONSERVATIVE MIAMI PROJECTIONS

Breakeven on A Single Repair Ticket

You don't need 50 new customers for this to pay for itself. With Miami HVAC margins, closing just **ONE single extra repair call per month** completely pays for your VantorX system.

EST. MONTHLY INBOUND CALLS

60 – 80

Homeowners finding Pro-Tech Air via Google Maps, referrals, and organic search.

CONSERVATIVE RECOVERY (15%)

+4 Jobs

4 jobs saved from voicemail each month that would have hired the next contractor.

NET MONTHLY REVENUE SAVED

+$8,800

Based on conservative $2,200 blended repair/replacement value. **$105,600 / year.**

💡 **The No-Brainer Breakeven Math for Carlin Oates:**

At an average ticket of $550 for an emergency capacitor or coil service, you only need **1 job every 30 days** to be in pure profit. Everything else is pure revenue straight to your bottom line.

THE INVESTMENT · NO COMMISSIONS · FLAT PRICING

Choose Your Pro-Tech Growth Tier

No lock-in contracts. No per-lead commissions. Flat transparent pricing designed for independent Miami trade businesses.
